**“Technology about Flow, Level measuring”**

<b>Number</b>	<b>Time</b>	<b>Subject</b>	<b>Spokesperson</b>
1	09:30~09:50	New progress in measuring steam and gas technology	Gang Ji Senior engineer
2	09:55~10:15	Battery power supplying electromagnetic flow meter of long-distance water measurement	Min fang Senior engineer
3	10:20~10:40	Latest technology of measuring two-phase flow	Xiangmin Peng engineer
4	10:45~11:05	Large Mobile Devices Gas tanks measurement	Gang ji Senior engineer
5	11:10~11:30	Function of meter state automatic checking	Xiangmin Peng engineer
6	11:35~11:55	Combustion gas flow measurement	Jizhong Wang Senior engineer

<b>Number</b>	<b>Time</b>	<b>Subject</b>	<b>Spokesperson</b>
7	14:00~14:20	New progress in electronic level gauging technology	Jingwu Li Senior engineer
8	14:25~14:45	Research and application in new technology of non-contact level gauging	Zhengjie Ding engineer
9	14:50~15:10	Some problems in radar level gauging	Xiao Zhou Doctor(Ph. D)
10	15:15~15:35	Safe problem in Radar measurement	Jianhua ji associate professor
11	15:40~16:00	Signal transmission in level gauging	Yu Zhang engineer
12	16:05~16:25	HTMS the problem about measuring stock solution quality in large holding tank solved by system	Hai Gao Senior engineer
13	16:30~16:50	Wireless information technology in discharge, level gauging ,meter	Zhengyu Hu engineer
